Congratulations on your decision to take the American Red Cross Lifeguarding course! The training you will receive will be demanding and will require a commitment of time, energy and effort from you. The rewards will be mental and physical conditioning as you become a true lifeguard professional.

\*You will need to come to each class session rested, ready to go, and prepared for hard work as this is a very challenging course.

\*Be sure to always bring extra towels, sweats, snacks, etc. for the duration as we will be in and out of the water.

**\*There will be NO make--up sessions as it is too difficult to schedule them. You will need to clear your schedule to ensure that you are available to FULLY attend each class session.**

**\*Following are the American Red Cross prerequisites that each candidate needs to complete before being admitted into this Lifeguarding class.** Should a candidate fail to complete these prerequisites, s/he will not be permitted to continue and must withdraw from the class.

1. Swim 300 yards continuously (no pauses or stops) demonstrating rhythmic breathing and a stabilizing propellant kick. Feet must stay off pool bottom.
  - a. Candidates may swim using the front crawl, breaststroke or a combination of both
  - b. Goggles may be used
2. Tread water for 2 consecutive minutes using only the legs.
  - a. Candidates should place their hands under their armpits or raise their hands out of water.
3. Complete the following timed event within 1 minute, 40 seconds:
  - a. Starting in the water, swim 20 yards; the face may be in or out of the water. Swim goggles are NOT allowed.
  - b. Surface dive, feet first or head-first, to a depth of 12 feet to retrieve a 10-pound object.
  - c. Return to the surface and swim 20 yards on the back to return to the starting point, with both hands holding/remaining on the object and keeping the face at the surface to be able to breath. Candidates may not swim the distance under water.
  - d. Exit the water and stand up without using the ladder.

**\*\*Please note that this class is a pass/fail program; the department will not issue refunds should the student fail to complete all requirements (after passing the prerequisite skills testing and being admitted into the class).**
